
SPORTS SADDLE PURCHASE AGREEMENT

If you receive your custom saddle and decide you want something changed or further customized. Sport Saddle will try to work with you. But any additional work will be at your expense.

Please keep in mind that leather is tanned from natural cowhides and although we use only select premium hides, there will be some natural blemishes in the leather. Also as the materials we use in our saddles are soft and flexible when we sew the saddles together it may leave sewing machine "footer" marks on the leather which is unavoidable. Also, there may be some slight variation in the length of the stitching due to the nature of the materials. We cannot guarantee custom "Dyed" or some custom colors of suede leather to be "colorcast". Please take these items into account when ordering a custom saddle.

Our goal is to assure that you understand what you are ordering and that you will be happy with your saddle.

NOTE: If you are not familiar with "Sports Saddles" or have never ridden one. We strongly recommend that you not order a custom saddle.

Often we have a few in-stock saddles that may fit your needs or that you can test ride for 10 days and you are only out the cost of shipping and handling if you choose to return it. After your 10 day trial you may decide to just keep the saddle or simply ship the saddle back to us and you will have a much better idea of what type of saddle you need to order to fit your needs. Our skilled staff will be happy to work with you.

I have read and agree to the terms of ordering a custom Sports Saddle.
